

RCC Exported Macros

AHB1 Peripheral Clock
Enable Disable

```
graph RL; A["AHB1 Peripheral Clock Enable Disable"] --> B["RCC Exported Macros"];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'AHB1 Peripheral Clock Enable Disable'. The box on the left is white with a black border and contains the text 'RCC Exported Macros'. The arrow indicates that the macros in the left box depend on the clock control functions in the right box.
